

After servicing hundreds of thousands of pipettes of all makes and models for over 25 years, TTE Laboratories applies our pipette expertise and proudly announces our selection of our first GMP Select product, the EON S Pipette.

All the costs you avoid with the EON S add up. Over the 8 year life of a typical pipette, the EON S will deliver a:

**\$345 (29%)**

lifetime savings

**91%**

return on investment

Access our EON S savings calculator at [ttelaboratories.com](http://ttelaboratories.com) to calculate your savings today!

TTE Laboratories has been providing excellence in pipette calibration and repair since 1989. Where many struggle to meet GMP and GLP standards or the regulatory standards of the FDA, CLIA, and CAP, TTE Laboratories continues to provide the most comprehensive and reliable liquid handling programs available, especially for those concerned with compliance to the critically important ISO 8655 standard.

Pipettes.com, the e-commerce store of TTE Laboratories Inc., is the leading online destination for labs looking to purchase pipettes, benchtop equipment and related lab supplies. Our guaranteed low prices, combined with unparalleled convenience and outstanding customer service, means you get the best possible value.
